我公司目前使用了南通市神马电力科技有限公司研制 126kV 气体绝缘复合套管，该产品性能稳定，外形美观，目前在工程上运行良好，望神马电力研发出更多规格套管产品，为电力行业做出更大贡献。

Our company is currently using the 126kV gas-insulated composite bushing developed by Jiangsu Shemar electric Co., Ltd. which has stable performance and beautiful shape, and is currently running well in the project, and we hope that Shemar will research and develop more specifications for bushing to make greater contributions to the power industry.
