我公司目前使用了南通市神马电力科技有限公司研制

Our company is currently using the 126kV and 252kV gas-insulated composite bushing

126kV、252kV 气体绝缘复合套管，该产品性能稳定，外形

developed by Jiangsu Shemar electric Co., Ltd. which has stable performance and beautiful shape

美观，目前在工程上运行良好，望神马电力研发出更多规格

and is currently running well in the project, and we hope that Shemar will research and develop

套管产品，为电力行业做出更大贡献。

more specifications for bushing to make greater contributions to the power industry.
